138 public kindergartens and **107** private kindergartens, with **81,100** children at school

Shenzhen Institute for Advanced Study, UESTC

19,856 teachers across the district, and **NO.3** in the city in terms of educational scale

"One-stop" International Service Platform

Leveraging the advantages of Shenzhen North Railway Station as the hub of Guangdong-Hong Kong-Macao Greater Bay Area and the superior conditions of "one station and three centers" to constantly enhance the international service capability.

- Shenzhen Longhua International Cooperation Center: the district-level international comprehensive exchange service platform featuring the largest area, the most complete services, the most functions, the widest range of objects.
- One-stop service platform for Hong Kong and Macao youth innovation and entrepreneurship: Shenzhen North Station Hongkong and Macao Youth Innovation and Entrepreneurship Center
- The widespread adoption of electronic license sharing and the launch of a streamlined "one-stop" online business registration system have allowed many services to be completed in just seconds.
- Setting up commercial courts and arbitration centers to offer businesses effective dispute resolution services.

DEVELOPMENT BLUEPRINT

By 2025

Longhua will fully consolidate its status as the metropolis core and build itself into a modern, international, and innovative new town on the central axis of the Guangdong-Hong Kong-Macao Greater Bay Area, basically achieving socialist modernization.

By 2030

Longhua will develop itself into a sustainable global innovation district, ranking among the top urban areas in the world.

By 2035

Digital Longhua will become the new engine for Shenzhen as the Pilot Demonstration Area of Socialism with Chinese Characteristics, and the metropolis core area will serve as a model for building a modern socialist powerhouse, leading the way in advancing the new journey of socialist modernization.

By the mid-21st Century

Longhua will reach the international advanced level in its digital urban governance system and capacity, emerging as a global benchmark district of competitiveness, innovation, and influence.
